Effective January 28, 2008

Molded Case Circuit Breakers

Certificate of Conformance or Compliance	\$150 Net Price Per Line Item
---	--------------------------------------

Certified Test Report	\$250 Net Price Per Breaker
------------------------------	------------------------------------

Special Calibration price additions apply to ampere ratings not listed as standard, or for ambients other than 40°C or 50°C. Price additions also apply to specific calibrations for frequencies other than 50 – 60 hertz ac circuits. Add **20% to list price** of circuit breaker (or trip unit if trip unit is ordered separately).

Moisture Fungus Treatment for any molded case circuit breaker **\$375 list price**. Factory modification charge of **20%** applies (see example).

Pricing of Factory Modified Breakers

Molded Case Circuit Breakers will be subject to the following modification charges:

Installation of Common Accessories:

Alarm Switches, Auxiliary Switches, Alarm/Auxiliary Combinations, Shunt Trips, and Undervoltage Releases.

Add \$150 list to the List Price of the Breaker and Accessory.

All other Modifications:

Includes special calibrations, moisture fungus treatment, and any other accessories not listed above.

Add 20% to the Total List Price.

Pricing Example 1

One Common Accessory Installed

FD3030	\$	1,214.00
120 Volt 60 Hz Shunt Trip		758.00
		1,972.00
Factory Installation Charge		150.00
List Ea. CB-2 \$		2,122.00

Pricing Example 2

Two Common Accessories Installed

Dry-Type Distribution Transformers Price Modifications

Modifications to General Purpose Units NOT Registered in VISTA

Note: These rules apply only to list prices and not to net priced standard transformers. Prior to applying these pricing rules, verify that the style number you require is not already registered in VISTA with a valid list price. List prices in VISTA take precedence over all manually calculated list prices. List price additions for special transformers are intended to be applied to the "base design" nearest to your application. "Base design" is typically a standard 150°C rise, aluminum wound transformer with the same electrical configuration as the special unit you require, i.e., delta-delta connected, or delta-wye connected.

List Price Additions

Rule 1. Special Primary/Secondary Voltages

If either one or both are non-standard (not listed in the catalog section for that particular transformer type), **add 10%**.

Rule 2. Copper Windings ①

The standard winding material is aluminum. For copper windings, **add 50%**.

Rule 3. Temperature Rise

For 115°C rise, when 150°C rise is standard, on units rated 750 kVA and below, **add 30%**.

For 80°C rise, when 150°C rise is standard, on units rated 500 kVA and below, **add 60%**.

For 80°C rise, when 115°C rise encapsulated is standard, on units rated 45 kVA and below, **add 40%**.

Rule 4. Electrostatic Shields

For electrostatic shields, which form a ground plane between the high and low voltage windings, **add 10%**.

Rule 5. Stainless Steel Enclosure

For transformers with Grade 316 stainless steel enclosures, **add 40%**.

Rule 6. 50 Hertz ①

The standard frequency is 60 hertz. For 50 hertz, **add 40%**.

Rule 7. Special Sound Levels

When sound levels below NEMA® standard ST-20 are required, **add 5%** per decibel below NEMA standard levels. This rule cannot be applied to K-factor nonlinear transformers. Contact your Eaton product representative for special sound requirements, such as low sound K-factor nonlinear products and requirements for sound levels exceeding 5 dB below NEMA standards.

Rule 8. Fungus Proofing

Fungus proofing consists of spraying all equipment within the wiring compartment with a fungicidal varnish. Add suffix **AF** to style number if this treatment is required. **List price additions** are:

Encapsulated design **\$250.00/unit**

Ventilated design **\$500.00/unit**

Rule 9. Non-Standard Taps

Standard primary voltage taps are listed in this catalog. When more than the listed taps are required, **refer to Division**. Additional taps are available in 2.5% steps only, up to a maximum of 6 taps.

Rule 10. Double Neutral

For three-phase applications where a 200% neutral is required, **add 5%**.

Rule 11. Lighting Tap

A lighting tap is available on the secondary (delta only) winding of a three-phase unit rated 30 through 300 kVA.

Tap is limited to 5% rated kVA.

For a 120 volt single-phase tap, **add 15%**.

Rule 12. CE Marked

For encapsulated or ventilated transformers that comply with European standards and have a CE mark, **add 10%**.

Rule 13. CSA® Labeled

CSA label is provided as standard on single-phase and three-phase General Purpose Encapsulated transformers. For ventilated transformers requiring CSA label, contact Eaton for a quotation.

Rule 14. Thermal Indicators

Thermal indicators are included as standard in Eaton's Cutler-Hammer® Type MD Motor Drive Isolation transformers. Thermal indicators are set to activate at a temperature of 190°C.

The Eaton standard is to install one indicator in each coil. To have thermal indicators installed in transformers other than Motor Drive Isolation, **add \$500.00 List Price/Set**.

Rule 15. Mini-Power Center Primary Breakers

Mini-power centers are provided with 14 kAIC primary main circuit breakers as standard (480 volt models have EHD main breakers; 600 volt models utilize FDB main breakers). When primary main circuit breakers with higher AIC rating are required for plug-on mini-power centers, the following **List Price adders** apply: (Not available with bolt-on mini-power centers).

- A. For FD primary main circuit breakers (25 kAIC @ 480 V; 18 kAIC @ 600 V), add suffix F and **add 5%**.
- B. For HFD primary main circuit breakers (65 kAIC @ 480 V; 25 kAIC @ 600 V), add suffix H and **add 10%**.
- C. For FDC primary main circuit breakers (100 kAIC @ 480 V; 35 kAIC @ 600 V), add suffix C and **add 15%**.

Rule 16. Integral TVSS

For TVSS units factory-installed integral to ventilated dry-type transformers, apply the following style number suffixes and List Price adders:

40 kA per phase TVSS installed on transformer primary, add suffix **P1** and **\$4,500** to List Price.

80 kA per phase TVSS installed on transformer primary, add suffix **P2** and **\$5,000** to List Price.

160 kA per phase TVSS installed on transformer primary, add suffix **P3** and **\$6,000** to List Price.

40 kA per phase TVSS installed on transformer secondary, add suffix **S1** and **\$4,500** to List Price.

80 kA per phase TVSS installed on transformer secondary (standard configuration), add suffix **S2** and **\$5,000** to List Price.

160 kA per phase TVSS installed on transformer secondary, add suffix **S3** and **\$6,000** to List Price.

For an indicating light that provides visual indication that the TVSS is operating, add suffix **P** to any of the above designations (S2P for example) and include an additional **\$500** to List Price.

Rule 17. Certified Test Reports

Factory certified test reports are available only when they are requested at the time of order entry. The following Certified Test Reports are available:

- A. Certified Report of Standard Production Tests:

Suffix TR \$500.00/unit
List Price addition

- B. Certified Report of NEMA Sound Level Tests:

Suffix SR \$1,500.00/unit
List Price addition

Add the appropriate Suffix from above to the style number when requesting these Certified Test Reports.
